MAKING A MARK

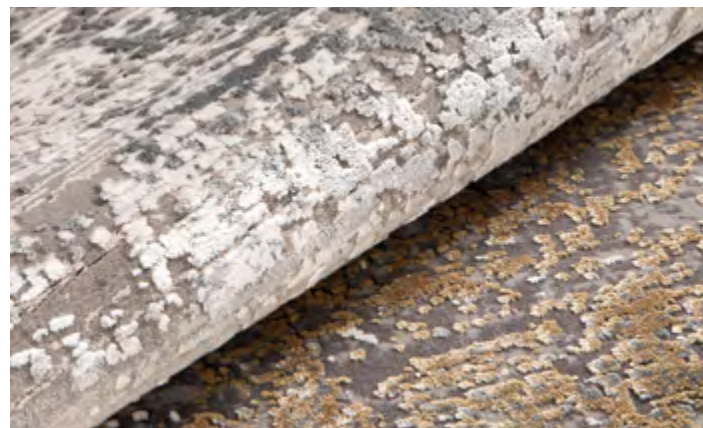

Since the company was founded, CARPETS & MORE has become a brand known for high quality and stylish rug designs. Each piece is created by exceptionally talented designers and produced by highly skilled weavers. Great quality natural yarns, high production precision and the joy of creating accompanying at every stage of the production of carpets, make each of them a work of art to be enjoyed for many years.

The IMPERIAL collection has been designed using the iconic palette of natural colors. Various shades of beige and gray with a subtle combination of expressive color drops in the perfectly balanced compositions will add a touch of elegance to any home. High density of weaving, medium low pile and a combination of viscose with synthetic wool (acrylic), make the IMPERIAL collection carpets soft and easy to maintain.

2 million points/m² • Fringe finish • Machine Made

EASY TO MAINTAIN

A rug with low pile made of mix of synthetic wool (acrylic) and viscose do not attract dust. Regular vacuuming will keep the rug clean every day. In the case of larger dirt, you can easily remove them with commonly available detergents.

EASY CLEAN

The rug had been covered with a special coating that prevents soiling.

RESISTANT TO CHIPPING

The elasticity of the fiber means that rugs made of a mixture of viscose and acrylic do not squeeze like rugs made of 100% viscose and keep a nice look for a long time.

BEAUTIFUL COLOR FOR YEARS

Good quality viscose and acrylic are resistant to sunlight. As a result, the rug retains its beautiful appearance for a long time.

EXCELLENT SOUND ABSORBER

The rugs are excellent at sound absorbing and limiting the introduction of sounds to other parts of Your home.

WARM UNDERFOOT

The carpet perfectly insulates cool floors, increasing the feeling of warmth.

PET FRIENDLY

The low pile of the rug allows it to be easily cleaned. It is also protected against pulling out the loops with the claws of animals.
