The now ROYAL collection has been designed using the iconic palette of natural colors. Various shades of beige and gray with a subtle combination of expressive color drops in perfectly balanced compositions will add a touch of elegance to any home. High density of weaving, medium low pile and a combination of synthetic wool with acrylic, make the ROYAL collection carpets soft and easy to maintain.

Available sizes (in cm): 150 x 150 | 200 x 200
2 million points/m² • Fringe finish • Machine Made

EASY TO MAINTAIN

A rug with low pile made of mix of synthetic wool (acrylic) do not attract dust. Regular vacuuming will keep the rug clean every day. In the case of larger dirt, you can easily remove them with commonly available detergents.

RESISTANT TO CHIPPING

The elasticity of the fiber means that rugs made of a mixture of viscose and acrylic do not squeeze like rugs made of 100% viscose and keep a nice look for a long time.

BEAUTIFUL COLOR FOR YEARS

Good quality viscose and acrylic are resistant to sunlight. As a result, the rug retains its beautiful appearance for a long time.

EXCELLENT SOUND ABSORBER

The carpet perfectly absorbs the noise-reducing effect in title transmissions.

WARM UNDERFOOT

The carpet perfectly insulates cool floors, increasing the feeling of warmth.
